GRENADA P. T. A. HOST TO VISITORS

District Congress of Parent Teacher Association Meets Here Wednesday. Many Features of Interest in Program.

The Parent Teacher Asociation of the seventh district comprising the counties of Calhoun, Grenada, Lafayette, Webster and Yalobusha held its annual meeting here Wednesday with an attendance of forty-eight delegates besides members of the local organization.

Mrs. John Rundle gave the welcome from the Grenada association and Supt. I. J. Marrs, of Water Valley, made the response. The morning sessions were presided over by Mrs. John Wade, district chairman, assisted by Mrs. Eugene Tarver, of Water Valley. The official Parent Teacher songs were used by the convention. They were directed by Mrs. H. H. Boswell, of Coffeeville, with Mrs. J. E. Lufkin, of Grenada, at the piano. Miss Catherine Lufkin sang most sympathetically a song used by the Texas state P. T. A., "A Little Child Shall Lead Them".

Besides the interesting reports from the various organizations represented, features of the morning program were the talk on dental hygiene by Miss Gladys Ehrich, of the state board of health, a plea for a higher type of district work by Mrs. Lester Greer of Potts Camp, state district chairman, and a discussion of pre-school education by Supt. H. D. Pickens, of Oxford.

Following a delightful luncheon served by members of the Grenada association in the dining room of the high school, Miss Margaret Armstrong, of Coffeeville, directed a period of recreation, consisting of informal games. The afternoon program was given over to unfinished business and two splendid addresses, one by Dr. A. W. Milden, of the University, the other by Mrs. W. D. Cook, state president of the Parent-Teacher Association.

Officers elected for the coming year were Mrs. John Wade, of Oxford, chairman, and Mrs. C. C. Penn, secretary. Other offices not filled will be provided for by the executive committee.

Mrs. Sam Simmons is president of the hostess association. She was assisted in caring for the convention by Mesdames Vassar Dubard, C. C. Penn, T. E. Heath, R. F. Matthews, Ed Perry, R. W. Sharp, J. N. Provine and C. C. Provine

POWER PLANT MANAGER TO GO TO GREENVILLE

H. C. West, who has been manager of the Grenada plant of the Mississippi Power & Light Co. since its purchase by that corporation and who was superintendent of the plant for many years while it was under municipal ownership, has been promoted to the post of superintendent of the company's power plant at Greenville and of the power substations serving large industrial consumers in the Greenville territory. Mr. West has spent practically his entire life in Grenada and enjoys a wide acquaintanceship in this section where his friends are legion. He is a man who is loyal to his friends and is one whose word can be relied upon at all times. He is solid and dependable and his integrity has never been questioned. The Sentinel regrets, with his other friends, that he is leaving Grenada but it congratulates him upon his promotion and its best wishes will follow him to his new field.

Mr. West expects to leave Monday to assume his new duties. His family probably will join him some time later.

Mr. West will be succeeded at Grenada by J. A. Worthington, at present manager of the company's plant at Coffeeville, who has been with the organization for some time and who has made a most enviable record. Mr. Worthington is a graduate of Mississippi A. & M. College and is thoroughly fitted for his new post.

SIX CHANGES ARE MADE IN SCHEDULES OF TRAINS

Effective last Sunday, Oct. 6, changes were made in the schedules of six passenger trains departing from the Illinois Central station in Grenada.

Train No. 1, formerly leaving at 2:00 a. m., now departs at 1:25 a. m.

No. 2 leaves now at 4:38 a. m. instead of 4:05 a. m. as formerly.

Instead of leaving at 4:23 p. m., the schedule of No. 4 is two minutes later. It now departs at 4:23.

No. 25 leaves now at 11:10 p. m. instead of 10:50 p. m. and No. 26 will leave ten minutes earlier, departing at 2:10 a. m.

No. 34's schelule has been moved up five minutes. It now leaves at 5:15 p. m.

All other trains, except the six above mentioned, retain the same schedules.

Mrs. Homer Williams and daughter, Gloria, spent last weekend in Memphis. They drove up with Mr. Wagner Williams.

MRS. ONIE MAE DOWDLE DIES

Mrs. Onie Mae Dowdle departed this life Friday night, Oct. 4th, and was buried Saturday afternoon at 3:30 o'clock from Garner Bros. funeral parlors. She was the mother of five children, three dying at an early age. She leaves her husband and two children, Onie Mae and William Green, besides her mother and a number of brothers and sisters.

She was a member of the First Baptist church of Grenada. Services were conducted by her pastor, Dr. W. E. Farr.

The Sentinel extends condolence to the bereft.

PRESBYTERIANS WILL HAVE TEACHER TRAINING COURSE

Miss Hudson, who has specialized in religious education and who has attended Columbia University and White Bible School, will conduct a five days' teachers' training school for the Presbyterians of Grenada, beginning next Sunday evening, Oct. 13, at seven o'clock. Each evening from Sunday through Thursday, Miss Hudson will teach two periods of fifty minutes each. The school will be held in the church. The evening was selected for the classes so that nothing else would offer any interference to those desiring to attend.

Every Sunday School worker and every Christian in Grenada, or any planning to become Sunday School teachers, regardless of denomination, are extended a most cordial invitation to unite with the Presbyterians in this study.

BEATEN ON HOME GROUND

Last Friday the Ruleville eleven took home with them honors that no other team has been able to be successful in doing for three years. They whipped the Grenada eleven on the local field by a score of 13 to 0. It was not by good luck, but by Ruleville outplaying the Grenada Hi.

If Ruleville had depended on the last half to win she would have been disappointed, for Grenada came back on the field and showed them how she could fight. If Grenada had had this pep and spirit in the first half, a different tale could be told.

The locals lost as good sports having no complaints to make, yet they did have odds against them. Ruleville had a heavier team and also nine seniors who have played four years together. This counts a lot against as young a team as Grenada's.

The game as a whole was well played by both teams. J. B. Pope and the line men did splendid work in the last half.

Today the team will play Kosciusko at Kosciusko. This is the hardest game on the schedule as Kosciusko has won every game so far, but maybe today a different tale will be told.

SCOUT MEETING

The Girl Scouts, patrol two, met at the high school building Thursday afternoon to elect new officers.

The patrol leaders are as follows: Ruth Kirk, Betsie Neelly, Clausell (Punk) Hollimon and Nina Grace Cunningham. Treasurer, Caroline Provine. The patrols have not yet decided on their name and colors.

The Girl Scouts will meet every Thursday afternoon after school in the basement of high school building. Any girl over ten years of age that wants to join please come to the scout meeting next meeting next Thursday.

TO ATTEND PRESBYTERY

Rev. Robert L. McLeod, Jr., pastor of the First Presbyterian Church of Grenada, and Mr. T. E. Moody, one of the leading laymen in the church, are planning to attend the sessions of the North Mississippi Presbytery which is to meet next Tuesday in Water Valley. Mr. McLeod is to preach the presbyterial sermon.

A number of Grenada Presbyterians will probably attend the meeting.

Patients admitted to the Grenada Hospital since last Wednesday are: Dorothy Clements, Coffeeville; Mrs. W. R. Caffey, Providence community; Mrs. J. H. Wolf, Cascilla; James Ernest Pittman, Slate Springs; Dixie Ruth Denton, Tillatoba; Mr. J. J. Hill, city; and Mr. A. L. Trotman, city.

FIRE DAMAGES NEGRO HOME

Fire Wednesday morning did considerable damage to the house owned and occupied by Wm. Cade, negro minister, in Gerard Alley. Prompt action on the part of the fire department prevented the loss from reaching any greater amount. Several hundred dollars damage was reported.

Your fire losses are paid promptly when your insurance is placed with Hoffa & Moody.

Letter Describes Interesting Trip

Mrs. George C. Carson Tells of Trip Last Month through States into Canada. More to Follow.

Below is the first of a series of four letters written to Dr. and Mrs. W. P. Ferguson, of Grenada, by their daughter, Mrs. George C. Carson, of Los Angeles, Calif., while Mrs. Carson was making a trip through the states into Canada last month. The letters will be published as space permits and The Sentinel feels sure that their contents will prove interesting to its readers, many of whom know Mrs. Carson. The first letter follows:

I have been sending you daily postals each day; I'll write a page or two each night and send you a long letter just before leaving the United States, telling you of all we saw before reaching the border line. As you know, we left Grenada Sunday, August 25th. We were awfully sorry that you and mother wouldn't join us, and we do hope you and she will come over and spend the winter in California with us, because when we get through seeing Amercia and Canada, we'll want to stay home a while before sailing over the ocean. We reached Memphis a little after seven and had plenty of time for a delightful dinner before departing for Philadelphia 9 p. m. From a love of California, our present home, we set the alarm for 3 a. m. for about that time our train sped through Hollywood, Tenn., but we didn't see as many bright lights as one sees in the Hollywood of California movie fame, so as the train moved on, we opened the gate to slumberland and awakened at daylight to view beautiful scenery just west of Chattanooga. As our drawing room had windows only on one side, this letter will be a bit one-sided. Now beautiful Lookout Mountain looms in sight.

We passed Tucker Spring, Cleveland, Athens, Ebenezer and in to Knoxville which is quite a nice town. We ordered breakfast and the train pulls into Bulls Gap—its a junction town, three-story brick hotel, and a lot of other brick buildings. A very pretty rolling country—very nice paved roads—high hills and dales, shales are tilted showing an undulated formation which indicates conditions, I am sure, would be interesting to geological students. Leaving Bulls Gap, we view some patches of tobacco growing. This peculiar plant looks something like the canna lilies on the east side of your front porch in Grenada. We see boys and girls cutting and hanging up on stakes these green tobacco leaves.

Soon we reach Mohawk Valley. A pretty, white church steeple reminds us to give thanks to God for this great pleasure of mental diversion. We hurry along and find the country unusually pretty, but the soil has given to man about all it has of substance, and will soon be left to peaceful rest, but no doubt will in time become a vast foundation for greater things in the coming air-developing ages.

Now we see an occasional apple orchard—green foliage, and beautiful red apples. We come in sight of Rader—delightful farm homes. We see a milk maid in gingham apron, cautiously stroking "Bossy" as train whistles blow. God bless such maidens, and may the devil never lure them from their innocence and beautiful surroundings.

Now as the train speeds fast over hills and dales and sparkling streams, we let our minds dream and dream and find ourselves at Greenville, Tenn. and we see Doak's Lumber Co. very prosperous looking which is in keeping with its name. Fields and fields of corn, fine three-story buildings, on and on we speed until we reach Afton, Tenn. which brings to mind a beautiful old song

"Flow gently sweet Afton,
Amongst thy green trees, flow gently,
Let me sing thee a song in thy praise
My Mary's asleep by the murmuring stream
Flow gently, sweet Afton,
Disturb not her dreams".

There are many winding streams, mountains thickly covered with trees in the valleys and hills, limestone formations are peeping up here and there, reminding us of the great age of our earth planet. No doubt this country was the floor of some great body of water before the time of Adam.

Two little colored girls and their industrious mother standing beside them reminded us that it was Monday, bright shining wash tubs and rows of snowy white clothes all hanging in a row, and now we are in Johnson City—apparenty a railroad town—rather prosperous looking, much coal and lumber being handled. Large iron blast furnaces and other industries.

An odd thought creeps into my mind when I observe that almost everywhere through this section there's corn (whiskey) and tobacco (dope) growing side by side, and confirms the old adage "birds of a feather invariably flock together".

We now pass Watauga and

Mr. Arnold ... nearing his 82nd birthday and lived a long and useful life. H... alth had not been good for so... ime and a complication of ai... s caused his demise. He was ... years a member of the Me... t church and was an honest upright Christian gentleman. Loyalty to his friends was one of his most outstanding traits. He lived at peace with his neighbors and with the world and was ever ready to speak a kind word and lend a helping hand to those in distress.

Besides his wife, he is survived by four daughters and one son and other relatives, to whom The Sentinel tenders its sincerest condolence.

ROTARY HAS VISITORS

The code of ethics of Rotary International was said to contain many important points in psychology by Prof. D. P. Wilson, head of the department of psychology and education of Grenada College, who was a guest Tuesday at the luncheon of the Grenada Rotary Club. Mr. Wilson spoke briefly on the psychological phases of Rotary and he paid a high tribute to those things Rotary stands for.

Rotarian John Rundle told of efforts being made to revive the organization of boy scouts here and he made a strong plea for Rotarians to lend their wholehearted support to the movement.

Rotarian Roy Doak, chairman of the committee in charge of the educational loan fund maintained by the club, made a report on the condition of the fund and mentioned several applications he had on hand for loans.

Besides Mr. Wilson, other guests Tuesday were Rotarian W. W. Wood, of Charleston, Lewis Kahn, of Cincinnati, and W. H. Kirk and Cliff Bailey, Jr., of Grenada.

HOLCOMB GIRLS FORM HOME ECONOMICS CLUB

The Holcomb home economic girls met Friday, Oct. 4, and organized a Home Economic Club. The purpose off this club is to work out plans to secure money for the furnishing of the new home economics cottage, which was erected this summer.

The officers elected are: president, Estelle Simpson; vice president, Loyce Singleton; secretary and treasurer, Mabel Martin; Reporter, Ione Gee.

Program committee: Gladys Dunn, chairman; Verner Sue Carver, Mary Ella Turnipseed.

Social committee: Louise Winter, chairman; Margart Hammons, Margaret S. Parham.

The regular meeting is the second Friday in each month.

The first project that these girls havve undertaken is a Hallowe'en party to be held in the new building. The proceeds from this will go for furnishing the new cottage.

COMES FROM ARKANSAS

Mrs. M. H. Wells, an experienced hotel woman of El Dorado, Ark, has recently purchased the City Boarding House furniture and fixtures and will continue the business under the name of the Wells House. The building is to be renovated and newly decorated and all furniture and fixtures are to be freshened up and made like new.

The Sentinel bespeaks for Mrs. Wells the consideration of the Grenada public.

CIRCLES NAME COMMITTEES

All the circles of the Methodist Missionary Society met Monday afternoon at the church for a business meeting. A committee was appointed to nominate new officers on November 1. Mrs. Ida Campbell is chairman and Mrs. J. H. Holder and Mrs. R. W. Sharp are the other two members of the committee. Another committee, composed of Mrs. A. W. Stokes, Mrs. J. R. Countiss and Mrs. R. F. Matthews, will have charge of the observance of the week of prayer beginning November 1.

The circles will meet Monday afternoon, at 3:30 o'clock as follows: No. 1, with with Mrs. W. M. Mitchell; No. 2, with Mrs. W. R. Todd; No. 3, with Mrs. E. L. Bass; and No. 4, with Mrs. J. H. Murray.

PHILOMATHEANS GIVE PROGRAM

The program presented at Grenada College on Monday evening, Oct. 7, by the members of the Philomathean Literary Society represented national progress since the days of the Indians and the first settlers.

One of the most interesting features showed what it means to be a member of the society.

The president, Miss Josephine Carr, delivered the welcome address.

Miss Lillian McGrath, sponsor of the organization, directed the program.

Many Reservations Received For Space

Names Given of Greyhounds and Thoroughbred Horses to Race at Fair. Great Contests Promised.

An advance list of the names of running horses and racing greyhounds that will be seen in action at Grenada during fair week Oct. 21-26, has been compiled from the applications received for stall space. Horses that have been racing in Kentucky, Illinois, Indiana and Missouri have already applied for stalls and greyhounds that have been campaigning with success all summer on the larger Chicago kennel club tracks have also made reservations. The following list is only a partial one for as this article goes to press other reservations for stall space are coming in and every indication points to a gathering of thoroughbred running horses and racing greyhounds such as has never before been seen in the state of Mississippi. In fact, Grenada seems destined to have the largest and greatest race meeting for running horses and greyhounds that has ever been held in this or nearby states. The list follows:

Thoroughbreds: Bob Prader, Dominator, Little Thicket, War Frank, Maggie L., Green Briar, Igotcha Tag, Fire Eater, Belle of Illinois, San San, Mid Day, Hot Dog, Georgia, Sammy Singer, Frank Carteer, Miss Ione, Everbright, Lady Germaine, New Britton, Little Smiles, Muguet, Armedee, Step In, Aragosa, Cypreme, Searchlight III., Chow, Fly by Night, and many others.

Greyhounds: Irish Comrade, Texas Caldron, Collins Pride, Judge Meadows, White Lightning, Bill Morgan, Allen Meadows, Phyllis, Texas Bug, Clever Capture, Sister Zue, Steam Bug, Johnny Comrade, Joe Gaines, Tipperary Billy, Miss Impertinent, Miami Beach, White Tippy, Lets Go, Chummy Boy, Murphys Lad, Dusty Answer, Candoit, Con Jackson, etc.

Among these names are horses and greyhounds that are known from coast to coast for being consistent performers on the largest tracks in the country. No less than 35 owners of greyhounds and running horses will be represented at the Grenada races during fair week. The horses and dogs given here are only a small portion of the number that will be seen in action and represent only those applying early for stall space. Not less than seventy-five running horses and nearly as many greyhounds are expected to enter the races.

All modern equipment will be used in connection with the racing. Automatic starting barriers will be used for the running horse races and regulation automatic starting boxes will be used for the greyhound races. The dogs will chase an automatic rabbit and will wear colored, numbered blankets. The running horses will be saddled in front of the grandstand before each race and will be paraded to the starting barrier by the lead pony and parade judge. A regular starter, racing secretary and presiding steward will officiate and the horse races will be conducted under the rules of the Kentucky Jockey Club while the greyhound races will be conducted under the rules of the International Greyhound Association. All races will be strictly open and entirely competitive in every sense of the word. Several greyhounds from Memphis will be here and quite a number of Mississippi owned thoroughbred horses will also compete. Stall space will be taxed to capacity long before opening day and patrons of the 1929 North Mississippi Fair will be treated to the highest type class of running horse races and greyhound races that have ever before been seen in this state. The fair association has gone to great expense to provide a brand of high class, clean competitive racing, something that will be strikingly different and entirely novel, a real race meeting conducted by one of the largest racing associations in the United States which puts on regulation race meets throughout this country, Canada, Cuba and Mexico. The United Interstate Racing Association will have full charge of all racing and this organization will put on an annual all-winter race meeting this winter near New Orleans so they have induced running horse owners and owners of large racing kennels to ship here to compete while en route south for the all-winter season. In this way, the Grenada fair will have the benefit of seeing the same class of dogs and horses race that are seen in the big racing centers such as New Orleans, Miami, Louisville, Chicago, etc. There will be both running races and greyhound races every afternoon of the fair for six consecutive days beginning Oct. 21st.

Mr. H. B. Spain and Mr. and Mrs. J. H. Murray motored to Memphis Sunday. Mr. Spain went up to see his wife and little daughter, Peggy. He returned to Grenada Monday and Mr. and Mrs. Murray, Sunday.

MRS. W. E. ABEL DIES

Mrs. W. E. Abel, of Providence neighborhood, died suddenly Tuesday night, Oct. 1st, and was buried from Providence Baptist church Wednesday afternoon at 2 o'clock, Dr. W. E. Farr conducting the service. Mrs. Abel would have been 58 years of age the 18th of this month. She leaves a husband and 8 children to mourn her departure. She was a devout member of the Providence church.

The Sentinel extends its sympathy to the sorrowing.

TELLS OF WORK DONE BY DEVELOPMENT ASSOCIATION

J. T. Thomas, organizer and the chief driving force behind the operation of the Grenada County Development Association, addressed the members of the Young Men's Business Club last Thursday, telling them of the accomplishments of the organization since its formation and pointing out to them the importance to the business life of Grenada in keeping the association alive. He reviewed the expenditures made by the body and gave an accounting to his hearers of every dollar contributed. He said that to drop the work now would prove a most backward step for the community and he urged his audience to respond to the solicitation now being made for funds to carry on the work.

What Mr. Thomas said was given hearty endorsement by W. B. Hoffa who very briefly compared the benefits of the dairying industry to other factors which contribute to Grenada's wealth.

President Roy Doak announced that at the next meeting, Oct. 17, the club would be called upon to elect six members of an executive committee which, with the officers of the club, would constitute a governing body with power to take action for the club in the interim between meetings.

CLAYTON RAND HERE

Clayton Rand, the versatile and talented editor of the Gulf Coast Guide, Gulfport, was in Grenada for a few hours Tuesday. He was in this section of the state on business and took advantage of the opportunity to spend a short while in Grenada.

Mr. Rand is one of Mississippi's most brilliant men. He reads much, is well posted on affairs of the day and is therefore able to discuss intelligently almost any subject. His paper is regarded as one of the leading newspapers in the state and its editorial columns are regarded as able and constructive.

Mr. Rand went from here to West Point, whence he returned to his home.

SHRINE BAND TO PLAY

The North Mississippi Motorcade of Wahabi Temple, A. A. O. N. M. S., is scheduled to arrive in Grenada at 6:30 p. m. on Thursday, Oct. 24, to spend the night here. The motorcade is to visit various towns in this section of the state and, as it happens, the visitors will be here during fair week.

Thursday evening, the motorcade will visit the fairgrounds where the Shrine band will give a concert and the Shrine patrol will give exhibition drills.

This promises to be one of the most pleasing features of the fair and those who have never seen a body of Shriners on dress parade have something to look forward to.

GIRL SCOUTS HAVE MEET

I know everybody is glad to know that the Girl Scouts are "on the job" again under the direction of Mrs. Robert McLeod. They had their first meeting Tuesday afternoon, October 8th.

First there was a potato race, which Cornelia Mohler's team won. After this patrol leaders were elected, and members of the patrols were chosen. The patrols and their respective leaders are:

Argoth, Billy Chapuis; Flying Eagle, Adelaide Horton; Apache, Grace Kirk.

All the scouts are very enthusiastic, and it looks as if this is going to be the best year they have ever had.

Mary Upshaw Jones, Scribe.

FIRE FRIDAY DESTROYS HOME OF W. V. HORTON

The home of W. V. Horton, supervisor from district 2 and one of Grenada county's prominent citizens, at Haserway, near Brown's mill, was completely destroyed by fire last Friday. The fire originated from a defective flue. The damage was estimated to be approximately $2500, with no insurance.

Your fire losses are paid promptly when your insurance is placed with Hoffa & Moody.

SENTINEL IN ERROR SAYS GRIFFIS SHAW

Grenada County Farmer Says Paper Erred in Boosting Grenada as Cotton Market and Cites Instance as Proof.

Editor Sentinel:

You had an editorial in your issue of Sept. 27 boosting Grenada merchants, their stocks of goods and particularly did you emphasize that Grenada was giving the top of the market price for cotton and for cotton seed. You went strong on the cotton seed. Now I know you thought you were publishing the facts, but if I can understand figures and know when one offers more than another buyer for cotton, Grenada is falling below in cotton prices certainly in some instances. Let me give an example:

On Thursday, October 3, I offered 7 bales which graded ⅞ middling cotton. The cotton was in the compress. Several of the cotton buyers would not make a bid. Messrs. Keeton and Horn, as I understand, one firm, bid 17 cents. I was not pleased with the price for the reason I thought that even Elliott and Duck Hill were, or had been giving more. So I phoned to Elliott and Mr. R. F. Carpenter there said he would give 17½ cents, but that it would cost him 50 cents per bale to get the cotton out of the compress, which I would have to pay; this would have cut the price to 17.40. I saw Mr. I. O. Pearson, Sr. and told him that I had an out of town price of 17½ and also told him of the compress charge. Then he said he would give me 17.40. So much for the cotton sale.

Now about Grenada prices for cotton seed; I do not know what Mr. Borden is charging for ginning, but I have been told what the Grenada Oil Mill (and I suppose the other gin of the town) is charging for ginning. The day I sold my cotton as above mentioned, I saw receipt No. 744 given by the Oil Mill gin for ginning. The weight of the bale was 515 lbs. The charge for ginning and wrapping was $6.27. I have before me as I write this, receipt No. 1070 for ginning one bale, 560 lbs. by Doolittle Bros. at Cadaretta. The cost of ginning and wrapping that bale is or was $4.86, or a difference of $1.41 in favor of the Doolittle gin. Thus there is a sort of wheel within a wheel about what is being given by some right here in Grenada for cotton seed. I think the Doolittle price is about what most country gins are charging. Will some onee explain why a gin in Grenada charges more than a gin in the county? Certainly the seed are no better cleaned and the staple is no better when ginned in Grenada.

Now I believe that Grenada is topping the market on long staple—at least that is what some say who ought to know, but the trouble is that too many of us farmers in this section have no long staple. Short staple is what this market gets, I think that the example cited about my cotton will hold with other small nearby towns. I am for Grenada. It is my home town and my county site but our cotton buyers must stand to the farmers while the farmers are trying to stand by them. Heaven knows we are getting little enough for cotton at the best, the price of everything else considered. Please publish.

Yours very truly,
J. G. SHAW.

Grenada, Miss., Route 4.

Editorial Note: The Sentinel is ever ready to give space to the discussion of both sides of a question. While not posing as an expert on cotton classing or the cotton market, we do know that there are many things which enter into cotton buying—too many things for the good of the farmer and for the general welfare. The day Mr. Shaw offered his cotton might have been a day when the orders for cotton of the grade of his were filled so far as Grenada buyers were concerned. Then there must always be considered the mistakes common to humanity; somebody might have erred in grading the cotton and some buyer might have graded the cotton too low. The buyer is hemmed in by the speculator, the future dealer, just as the farmer is. The future speculator in cotton is the animal that preys upon the cotton farmer and the local cotton buyer, too, to some extent. The future speculator should be routed horse, foot and dragoon. But it is hardly fair to judge a man by one act alone. So we think it hardly fair to pass judgment on a cotton market by the price offered for 7 bales; the market should be considered as a whole, as a day after day of sales.

RALLY DAY SUNDAY

Rally Day will be observed next Sunday morning at the Presbyterian Sunday School and a large attendance is expected. The program, which will consist of songs, pageants and talks, is to begin at 9:45 o'clock and should be concluded about 11:30.

JOHN BORDEN'S PROGRAM

In our Fair and Progress edition, which is being mailed out this week with the regular paper, it will be seen that Mr. John Borden uses a page to give his ideas as to what Grenada needs most.

It was thought until Mr. Borden's copy for this ad came, that he would use the space to say something about Glenwild, his beautiful farm property which is not only the pride of Grenada and of Grenada county, but of the state. There is not in the South, we dare say, a farm that is better improved and upon which more money has been invested in making lasting and permanent improvements than upon Glenwild.

But instead of saying something about the farm, Mr. Borden uses a page of Sentinel space to tell what he thinks should concern at this time the forward looking citizens of Grenada. Mr. Borden's judgment on any business proposition ought to be good—it is good; he is one of those whose work and success evidence his good judgment and his faith.

Grenada should and does very greatly appreciate Mr. Borden's interest in the town and in the community. He has given substantial proof of his concern for Grenada and this immediate section in numerous and most substantial ways.

A reading of his page statement will show the following as to what he thinks are Grenada's paramount needs:

1. A City Plan.
2. A Zoning Law.
3. A New Hotel.
4. A New Court House.
5. A Municipal Swimming Pool.
6. A law controlling and taxing ad signs on public property.
7. A law against dumping rubbish along the roadsides.
8. Concrete highways.

The Sentinel finds itself in substantial agreement with Mr. Borden. At sundry times we have endeavored to urge several of the things which he suggests.

Undoubtedly Grenada needs a new hotel, one in every respect up-to-date so as to meet the demands of modern travel. We need a new hotel in order to accommodate the rapidly increasing number of automobile tourists who are more and more destined to travel highway 51. If the traveling public knew Grenada was prepared to take care of every traveler, we believe the demand for hotel accommodations would increase 100 per cent within two years.

Grenada needs a new court house. The present one is not only badly out of repair, but it is unsightly and is bound to be unsanitary. As soon as we get some more of the d[illegible] owe behind us, we are ready to back our ears and g[illegible] for a new court house.

The city of Grenada has talked of a city hall at times for several years. The sensible, businesslike thing to do, is, when the time comes, for the city authorities and the county authorities to plan together a building that will accommodate both the county and the city of Grenada. By this joint effort, we can erect a more handsome building and at a cost far below what would be required if the buildings were undertaken separately. There is ample room on the present court house lot. A new building could be up closer to the public square and thereby get a great deal more building room, and any first class architect can draw plans for the erection jointly of a city hall and a court house and yet have their departments entirely separate.

The Sentinel has many times urged a swimming pool for Grenada. One properly supervised would be almost a benediction to the community. A swimming pool would provide healthful recreation for the youth and many of the older heads would delight in a swim occasionally. Not many months ago, we told the story of what Okolona had done in building a swimming pool and how easily the city authorities had planned to pay for it.

Mr. Borden speaks wisely in suggesting a law controlling and taxing ad signs on public property, and just as sagely in urging that remedies be provided against dumping rubbish along our highways. Impressions are lasting, and first impressions rarely wear away. A stranger passing through can but measure in some degree the character and creative thought of a people by what he sees. The eye feasts on beauty and rebels at conglomerations and the unsightly.

Mr. Borden is looking beyond today when he urges a "city plan" for Grenada, and is likewise looking from the night time of the present into the dawning of another day when he reminds us that it is time now for Grenada to begin a systematic zoning law.

Mr. Borden states an overwhelming truth when he says we should have concrete highways. Again, he but states concretely that which we, together with many of our most representative citizens, have labored for for many months. Hope deferred, it has been said, maketh the heart sick; while this is not literally true as regards concrete highways, we are hoping and planning and are not going to stop until we get concrete highways. The fact that we have not got them today puts us in the position of the car driver who has had a blow-out.

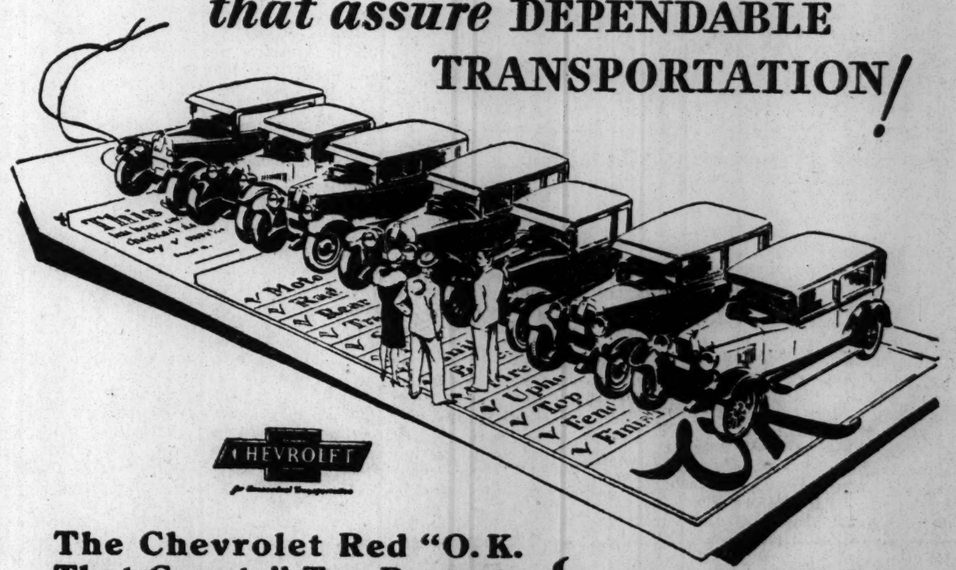

Now, we must not forget that Mr. Borden must have given more than passing thought to Grenada and its welfare, and that he has gone to some expense to give his views. Yes, he is interested. We repeat that he has shown that he is seriously concerned about Grenada's welfare and that he really likes us.

We are making no wild guess in saying that if we had the funds, if would not be very long before Grenada put into effect Mr. Borden's urge for a new court house to which we would add a city hall, and yes, a new hotel.

The Sentinel, on behalf of the town and the county, expresses appreciation of Mr. Borden's interest in us and for the very substantial proof of his friendship for Grenada and its citizenry. It is a rare thing that a man of great affairs like Mr. Borden turns aside as he does to spend money and give time and thought to a small community like ours, which but serves to drive home the lesson that Grenada should give serious consideration to any recommendation or suggestion which he makes.

How to get MONEY BY MAIL from the Power Company every 3 months

The Mississippi Power & Light Company sends money by mail every 3 monhs to hundreds of its customers and other local people. This money is "dividends"—money earned for hese folks by *their savings* which they *invested* in Mississippi Power & Light Company Preferred Stock. If you had only 10 shares of this stock you'd be entitled to receive a check for $15.00 every 3 months—$60 a year—increasing your present income $5.00 a month. Isn't that worth while?

Let the Mississippi Power & Light Company pay you

6% ON YOUR SAVINGS

Over two thousand men and women have invested their savings in this stock. They have found that they can depend upon getting their dividend checks in the mail, regularly and promptly, every 3 months on February 1, May 1, August 1 and November 1. Dividends are free from present normal Federal Income Tax and if you live in Mississippi you will not have to pay any Municipal, County and State Taxes on the money you invest in this stock. Invest Your savings in

MISSISSIPPI POWER & LIGHT CO.
CUMULATIVE PREFERRED STOCK

We maintain a Resale Department to assist and advise stockholders who may wish to sell their shares

It PAYS to invest your savings in Mississippi Power & Light Co. Stock

Consider the man who invested in 10 shares of stock when we first offered it to our customers and other local people in November, 1927. It meant an outlay of about $950.00. By August 1, this year, the dividends earned by his shares and paid to him every three months, have amounted to $105.00 The $105.00 would have been his loss if he had let his savings remain idle instead of investing them.

Now look at it this way

It isn't really so much a question of whether you can AFFORD to invest, but it is more a question of whether you can afford NOT to invest. Can you AFFORD TO LOSE the extra dollars your savings could earn for you if you had them safely invested?

Mrs. Garner Hostess to Club.

Mrs. George Garner entertained the bridge club of which she is a member Wednesday afternoon.

Cape jasmine and dahlias were used in decorating.

Mrs. C. W. Kosman won high score prize, a dainty organdy apron, and Mrs. E. L. Bass cut consolation, attractive bridge score pads.

An unusually delicious salad course was served later.

Besides the club members, Mrs. Dewey Harrison and Mrs. Paul LaGrone were present to enjoy the afternoon with the gracious hostess and other guests.

Mr. Brooks Is 73.

The seventy-third birthday of Mr. J. P. Brooks proved to be one of the most enjoyable he has ever spent.

About 6 o'clock on Tuesday, October 8, several of his friends began to come in to see him, but he suspected nothing until his hospitable wife invited them in to a beautifully appointed dinner table where a huge white cake adorned with 73 candles formed the centerpiece.

The chosen color scheme of yellow and white was successfully carried out in the place cards, menu and flowers, which were white cosmos with marigolds and golden glow.

A sumptuous repast was served to the following: Mr. J. P. Brooks, Mr. J. L. Avent, Mr. J. T. Thomas, Mr. S. C. Mims, Sr., Mr. Theo. Knox, Mr. S. T. Tatum, Mr. Henry Stokes and Mr. J. P. Brooks, Jr.

Mrs. J. P. Brooks, Jr., Mrs. C. V. Gibson and Mrs. R. N. Brooks assisted Mrs. Brooks in entertaining her husband's guests.

Mrs. Horton Has Birthday.

Mrs. Cowles Horton surprised her mother, Mrs. E. A. Horton, with a lovely luncheon on Sept. 24, the occasion being her birthday.

Pink roses and greenery were artistically used in decorating and a mammoth birthday cake adorned the dining table where covers were laid for eight. Pink candles trimmed the beautiful cake, but Mrs. Horton said that one of the nicest things about the party was the fact that no one asked her how old she was.

After a delicious three course luncheon the guests, who are all intimate friends of the honoree, presented their birthday gifts with many expressions of love and good wishes.

Those present were: Mrs. E. A. Horton, Mrs. John Nason, Mrs. J. O. Herod, Mrs. Dora Adams, Mrs. W. E. Smith, Mrs. Minnie Barbee, Mrs. Genie Wright and Miss Belle Ayres.

Society in Program.

The Cliftonian Literary Society at Grenada College presented a most creditable pageant last Saturday evening, Oct. 5, in the auditorium. It was written and arranged entirely by members of the society, and was called "The River's Reflections". It depicted Mississippi history since the time of the Indians.

Prior to the presentation of the pageant, Miss Mary Joan Finger, president, gave the welcome address.

Miss Ruth G. Bale, head of the expression department, was dramatic director, and Miss Lillian McGrath, of the physical education department directed a number of the dances.

After the performance the members of the society enjoyed an informal party and an enormous basket of fruit, the gift from their sponsor, Miss Sophie P. Alston.

Mrs. Mitchell's Birthday.

Mrs. R. W. Mitchell's children honored her Sunday with a surprise birthday dinner.

Pink roses were artistically employed in decorating and the dining table was centered with a pretty birthday cake, pink candles forming the number of years of her life.

Many lovely gifts were added to the joys of the day.

The children and grandchildren who shared the happy occasion with Mrs. Mitchell were: Mr. and Mrs. John Mitchell and sons, John, Jr. and James, of Water Valley, Mr. and Mrs. Elmer Mitchell, Mr. and Mrs. Edgar Mitchell, Mr. and Mrs. Allen Mitchell and Mr. and Mrs. Lewis Angevine and little son, Mickey, and Mr. Archie Mitchell.

SPELLS OF BACKACHE

"I HAVE used Cardui at intervals for sixteen years, when I suffered from weakness, and it always helped me," says Mrs. J. W. Jinright, R. F. D. 2, Troy, Ala.

"Mostly I was afflicted with bad spells of backache. At times I felt as if my back would break. I would drag one foot after the other, in a helpless sort of a way, and once I got down in bed. My husband urged me to take Cardui, and I soon found what a fine medicine it really was.

"When my second child was little, I was in very bad health. I did not pick up as I should have. I was weak and sickly. I do not believe that I would have come through, but for Cardui." EX-140

Unintentional Suicide

Many people are slowly poisoning themselves just as surely as if they drank iodine every morning for breakfast. They are daily absorbing the toxins, or poisons, created by accumulated waste matter in their constipated digestive systems. Sooner or later disease will conquer their weakened bodies.

If you have dizzy spells, headaches, coated tongue, bad breath, insomnia, no appetite, bilious attacks or pains in the back and limbs, you are probably suffering from self poisoning caused by constipation. through a country where there are some bluffs of limestone, beautiful wooded hills and vales into Penny Flats where we see huge logs from our side of the drawing room window. I can only write you the things as I see them from one side, and I have to think like lightning as the train seems to be flying. The sun is now playing hide and seek with us—first behind a towering pine, and next behind a mountain mine and casts its shadow over rippling waters.

Now we come to Bluff City situated on a pretty river and as we travel on, large boulders and rocks peep up over the rolling surface, giving one the thought more firmly grounded, that this country was surely the bed of a vast sea, ages ago, leaving behind the same conditions as one sees at the bottom of the Pacific ocean when looking through the glass bottom boats of Catalina Island.

Now we see a five-acre tobacco field and in it stands a lone five-foot corn stalk—it's well guarded. In an adjoining tobacco field there stood several large apple trees. I took particular notice of these fields as I had never seen any tobacco growing before. My aversion to the weed caused me to be interested. I consider it in the same class as other dopes and intoxicants.

We are now getting into dear old Virginia, where the F. F. V's reign supreme. We are at Bristol, which is on the line of Tennessee and Virginia. I see Bristol Hosiery Mills many red brick buildings, a nice depot.—the train stops. One observes the usual coming and goings — How-do-you-do's and goodbyes—red caps and railroad ties and hovering over them all a bright sunny sky. Stiff breezes remind us it's time to sneeze and the conductor yells "All Aboard!" and now we are up to our knees in Virginia.

We glide away from the smoke and roar of this little city. God's church tower looms in sight, guarding humanity from fright and inspiring to fame and flight. There are weeping willows and creeping billows and now a round house and the train creeps into a forest of trees; then out into open corn fields—distant hills and an occasional country estate with winding creeks and on a hill a white man and his wife were cutting tobacco. We are now seeing more and more tobacco as we come into the town of Wallace.

After lunch, we glance out and see towering sunflowers, as large as a dinner plate. They look very pretty and there is much red clay soil.

We now reach Abingdon It's

Book Club Meets

Mrs. E. R. Proudfit delightfully entertained her book club Tuesday afternoon. The living room of her home was brightened by a graceful arrangement of garden flowers in fall tints.

When the guests arrived a delicious collation was served and an interesting hour was spent at bridge. Mrs. Spivey Kent held highest score at the conclusion of the games and was presented a beautiful hand painted lemon dish.

Besides the club members, Mrs. Bob Counts, of Charlotte, N. C., who is the guest of Mrs. Ben Graham, Mrs. Robert Hall and Mrs. Spivey Kent were privileged to share the afternoon's pleasures.

Compliments Mrs. Wood

Miss Lena Elma McElwrath was the attractive hostess last Thursday afternoon when she entertained at bridge in special compliment to Mrs. Williamson Wood, of Leland, who was visiting her aunt, Mrs. C. K. Bailey.

The loveliest of fall blossoms lent color and charm to the living room where the four tables of players were seated.

Miss McElwrath was becomingly gowned for the occasion in green georgette and the lovely honoree wore red chiffon with blue accessories.

Mrs. Overton Pearson, who held highest score at the conclusion of the games, was awarded two dainty hand made handkerchiefs. To the honoree Miss McElwrath presented a pretty string of beads.

A tempting salad course was served the following guests: Mrs. Williamson Wood, Mrs. C. K. Bailey, Mrs. Homer Williams, Mrs. Donald Sharp, Mrs. Overton Pearson, Mrs. S. H. Garner, Mrs. Claud Gibson, Mrs. E. R. Proudfit, Mrs. C. B. Huggins, Mrs. Frank Mohead, Mrs. E. L. If you should lift the body of every car

in Buick's field—
and compare the chassis—
then you too would choose

The New BUICK

If you were to lift the body from the chassis of any one of a hundred cars—and compare the vitally important details of chassis design and construction—you would find Buick so outstandingly superior in all phases of fine car engineering that you would almost inevitably make Buick your choice. Here is what you would see in this famous chassis:

***Buick's great new Valve-in-Head engine*—developing 99 horsepower in the 124- and 132-inch models, and 80½ horsepower in the 118-inch models. Unapproached in sturdiness, all-round performance—ability, reliability and economy as well.**

***Buick's new Controlled Servo Enclosed Mechanical Brakes*—providing smooth, positive, silent braking, with minimum pedal pressure. And—because fully protected against dust, dirt and water—operating at maximum efficiency in any weather.**

***Buick's new frictionless steering gear and new Road Shock Eliminator*—twin advancements introduced by Buick. The Buick wheel offering effortless control throughout its entire turning range—and the new Road Shock Eliminator assuring complete freedom from annoying jolts and jars.**

***Buick's new, longer rear springs, and new Lovejoy Duodraulic Shock Absorbers*—front and rear. Combining to check both bound and rebound, and providing a degree of riding ease without parallel anywhere.**

***And, finally, such established Buick superiorities* as the famous double-drop frame of toughest steel . . . the massive side and cross members reinforced at points of stress to insure greatest long life . . . the celebrated torque tube drive, Buick multiple-disc clutch, self-lubricating differential, and numerous other features.**

When the list of Buick's chassis features—entirely aside from the irresistible appeal of Buick's new Fisher Bodies—reads like a roll-call of all that is soundest and best in fine car engineering . . . and when, in addition, you can buy a Buick for as little as $1225, f. o. b. factory . . . what wonder that all comparisons lead to Buick! What wonder that more than 2,000,000 people have invested their money in Buicks—and that from two to five times as many are purchasing this new Buick as any other automobile priced above $1200!

Council Meeting.

On Tuesday evening Mrs. R. A. Clanton, Mrs. J. H. Murray and Mrs. Gus Peacock prepared a delicious supper for the general council meeting of the officers and teachers of the Methodist Sunday School. Misses Thelma Jackson, Elizabeth Holder and Susie May Peacock assisted in serving.

The feature of the meeting was the presentation by Mrs. J. H. Holder of the program of work the Sunday School is to follow. Before its unanimous acceptance by the workers, it was thoroughly discussed.

The various department heads made very splendid reports.

It was decided to observe "Childhood and Youth Week" from October 1 to 20.

Adults Contract Children's Diseases

Adults can, and do, contract many children's diseases. And, usually, they suffer from them much more than children do. For instance, many adults contract worms, an ailment usually associated with children. Sometimes they suffer intensely and take expensive medical treatments, without realizing that worms are the cause of their troubles. Yet, the symptoms are the same as in children, loss of appetite and weight, grinding the teeth and restless sleep, itching of the nose and anus, and abdominal pains. And, the same medicine that surely and harmlessly expels round and pin worms from children will do the same for adults—White's Cream Vermifuge, which you can get at CORNER DRUG STORE.

PETITION FOR PARDON

To His Excellency, The Governor of the State of Mississippi.

Your Petitioner, John Johnson, respectfully represents: that at the July term, 1928, of the Circuit Court of Grenada County he was convicted of possessing a still and sentenced to serve eighteen months in the state penitentiary; that he has served ten months of this sentence: that for the same offense he was convicted in the District Court of the United States, and served in full the sentence of that court.

Petitioner now prays a pardon at the hands of the Governor of the State and in support of his petition states: That petitioner has been adequately and sufficiently punished for the offense charged against him. Petitioner further states that he is the father of four infant children who are dependent solely upon his labor for a livelihood, and that if he is again committed to serve the remainder of his sentence these children will suffer want and become a charge upon the public.

Therefore upon consideration of the above premises, petitioner respectfully makes this application for executive clemency.

PETITION FOR PARDON

To His Excellency, The Governor of the State of Mississippi.

Your petitioner, Fred Sission, respectfully represents: that at the July Term, 1928, of the Circuit Court of Grenada County he was convicted of possessing a still and sentenced to serve eighteen months in the State Penitentiary; that he has served ten months of this sentence; that for the same offense he was convicted in the District Court of the United States, and served in full the sentence of that court.

Petitioner now prays a pardon at the hands of the Governor of the state and in support of his petition states: That petitioner has been adequately and sufficiently punished for the offensee charged against him. That petitioner is a negro of only ordinary intelligence, and not mentally capable of understanding the full gravity of the offense which he committed.

Petitioner further states that he is the father of several infant children who are dependent upon him for a living and who will suffer want if he is again committed to serve the remainder of his sentence.

Therefore petitioner makes this application for executive clemency.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL LESSON

By Rev. P. B. Fitzwater, D. D.
Dean, Moody Bible Institute of Chicago
(©, 1929, Western Newspaper Union.)

Lesson for October 13

KEEPING FIT FOR THE SAKE OF OTHERS

LESSON TEXT—Dan. 1:8-20, 1 Cor. 9:19-27, 1 Tim. 4:7-12.

GOLDEN TEXT—Know ye not that your body is the temple of the Holy Ghost which is in you, which ye have of God, and ye are not your own, for ye are bought with a price; therefore glorify God in your body.

PRIMARY TOPIC—Taking Care of Our Bodies.

JUNIOR TOPIC—Keeping Fit.

INTERMEDIATE AND SENIOR TOPIC—Self-control for the Common Good.

YOUNG PEOPLE AND ADULT TOPIC—Temperance Essential to the Highest Usefulness.

Temperance Lesson.

In the use of this as a temperance lesson it must be borne in mind that it is temperance in the sense of self-mastery rather than indulgence in intoxicating liquors.

1. The Self-mastery of Daniel and His Companions (Dan. 1:5-20).

These young men were wrenched from their homes and country in the tender years of youth and carried away as captives to a strange land.

1. Their trials (vv. 5-7).

(1) The test of conscience (v. 5). By the appointment of the king, a portion of the king's meat and wine was provided daily for the captives. This being contrary to the Jewish customs, the young men could not conscientiously partake of them. Conscience is the groundwork of human character.

(2) Changed name (vv. 6, 7).

Among the Hebrews, names were given to children which were most significant. Daniel means "God is my judge." The significance of this name was that all the problems of life were submitted to God for His decision. This was the secret of Daniel's successful life.

(3) Their religious life (v. 8).

This involved their refusal to eat meat and to drink wine. In the case of Daniel at least, it also involved his praying three times a day. Daniel purposed in his heart that he would not defile himself with this food and drink.

2. Their courtesy (vv. 8-13).

Daniel seems to have been the spokesman for the company. Although his heart was fixed, he did not forget to be a gentleman. He requested that he be excused from this meat and drink in order not to be defiled.

3. Their triumph (vv. 14-21).

(1) Their physical health (vv. 14-16).

A test was made for ten days which showed that they were fairer in countenance and fatter in flesh than those who indulged in the king's meat.

(2) Their mental growth (vv. 17-20).

Daniel and his companions were found to be ten times better than their comrades in wisdom and understanding.

(3) Social and political preferment (v. 19). They stood before the king.

(4) Their temporal influence (v. 21). All were advanced to positions of influence, and Daniel became president of the college of wise men, and the prime minister of the nation.

II. Paul Advises the Corinthians as to Self-control (I Cor. 9:19-27).

The Corinthians were an intemperate and a dissolute people. No city in the world perhaps exceeded them in vices of all kinds. The surest and most effective way to combat vice is to inculcate virtue.

1. Paul's own life and example (vv. 19-23).

Though free from all men, he made himself servant unto all.

2. The Isthmian games (vv. 24-27).

Paul used these popular games to illustrate the need of self-control.

(1) Life is a race (vv. 24, 25). In order to win a prize there must be self-denial and definite exertion. The Christian obtains life by contact with Jesus Christ through faith (John 3:16; 3:36; 5:24). While he gets salvation (life) at the beginning, God places before him definite rewards as incentives to exertion. The Christian believes for life, but works for rewards.

(2) It is a fight (vv. 26, 27).

The Christian's efforts are not mere beatings of the air. He has a deadly struggle with his carnal nature.

III. Paul's Advice to Timothy (I Tim. 4:7-12).

A minister needs to have control of himself. He is urged to exercise himself unto godliness. He needs to train himself for his work as a teacher and a minister.

Sickly Boy, 7, Gains 15 Lbs—Father Happy

"My boy, 7, would not eat. I gave him Vinol and the way he eats and plays now makes me happy. He gained 15 pounds."—J. F. Andres.

Vinol is a delicious compound of cod liver peptone, iron, etc. The very FIRST bottle often adds several pounds weight to thin children or adults. Nervous, easily tired, anemic people are surprised how Vinol gives new pep, sound sleep and a BIG appetite. Tastes delicious.

IMMEDIATE RELIEF FROM INDIGESTION

Not Necessary to Diet

Many people who are hungry are afraid to eat for fear of distressing after-effects. They keep themselves on a limited diet and go about half starved.

This is unnecessary. Take a spoonful of GORDON'S after meals and you can eat what you like and as much as you want without any after-feeling of distress. Try it and see.

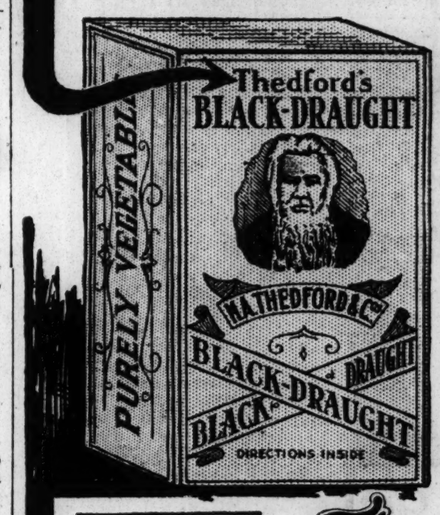

GORDON'S, an internal antiseptic, goes right to the seat of the trouble by stopping fermentation (souring of food). It soothes, heals and strengthens weak or disordered stomachs.

Get a bottle of this famous remedy from Dyre-Kent Drug Co., or other good druggists. Costs less than three cents a dose.

Compare features . . . to learn how much more Oakland gives for its price

The Cabriolet Body by Fisher

UNTIL you have actually compared today's Oakland All-American Six with other cars of its price you cannot appreciate how much more Oakland is offering for your money. For Oakland provides a combination of advanced engineering features which no other medium-priced car in the world has matched.

878 individual comparisons have been made between the All-American Six and twenty other medium-priced cars. Of these comparisons, Oakland proves to be definitely superior in 451 or 51.37 per cent. The twenty other cars combined are at best equal to Oakland in 382 comparisons or 43.50 per cent. *And 13 of the 20 are higher-priced than Oakland!*

Before you buy any car within $300 of Oakland's price, be sure to come in and see the complete results of this comparison. And when you have seen them, we will clinch the proof of Oakland superiority with a demonstration—convincing you beyond any question that this is *America's finest medium-priced automobile!*

Proof that Oakland is America's Finest Medium-Priced Automobile

WHEELBASE Only one car as low-priced as Oakland has a wheelbase as long as Oakland's, which is 117 inches. That car requires a turning circle to the left of 42 feet as compared with Oakland's 36 feet. Six higher-priced cars have shorter wheelbases.

PISTON DISPLACEMENT Oakland's 228 cubic inch piston displacement is greater than 12 of the 20 cars in its price field. Of the 8 remaining cars, 7 are much higher priced than Oakland.

RUBBER ENGINE MOUNTING Only Oakland in the entire field employs rubber "biscuit" insulators. While others claim rubber mountings, none offers such resilience and permanent freedom from vibration as Oakland.

BRAKES Only Oakland and one other car in its field use the fine type of brakes which Oakland employs. And no car in the field equals Oakland's 290 square inches of brake band area. Oakland's separate emergency brake operates on the transmission. Seven cars in the field have no separate emergency brakes, although three of them exceed Oakland in price.

FISHER BODY Only Oakland and two other cars in the field offer bodies by Fisher. And one of the two is nearly $100 higher in price than Oakland. Of the 18 cars which have less-known bodies, 11 are priced above the All-American Six.

Oakland All-American Six, $1145 to $1375, f. o. b. Pontiac, Mich., plus delivery charges. Spring covers, Lovejoy Shock Absorbers included in list prices. Bumpers and rear fender guards extra. General Motors Time Payment Plan available at minimum rate.

Consider the delivered price as well as the list (f. o. b.) price when comparing automobile values . . . Oakland-Pontiac delivered prices include only authorised charges for freight and delivery and the charge for any additional accessories or financing desired.

LETTER DESCRIBES INTERESTING TRIP

(Continued from page 4)

about two o'clock. This is a pretty little village and we are getting glimpses of a beautiful country and refreshing breezes bringing us into Glade Springs, Virginia. Most farm houses now are getting to be two-story and we see many church steeples towering above the corn fields, surrounded by tobacco farms. The tobacco leaves are from one to three feet long and six or eight inches wide. They are hung up to dry until most of the moisture is out, then taken to tobacco houses to be cured.

We are now coming to a country of mixed farming, cattle, corn, potatoes, hay, beans, etc. and you can see the cows and calves resting beneath the shade of beautiful trees and occasionally an old fashioned plow with horse. Over the green hills and into the valleys viewing hundreds of hay stacks basking in the sunshine. Here we run into a forest of cedars and oaks and then into the rocky hills, dropping down into low valleys with a muddy, winding stream, miles long and about twelve feet wide, deep in some places, shallow in others. A dairy nearby, blowing whistles indicate a stop. We pass several more tobacco curing houses. A little further, a deep limestone ravine. Now an apple orchard, not very prolific, rather neglected, but the matured red apples are pretty. Now huge piles of screenings from a big rock crusher and a rock quarry is there surrounded by tall, stately, geeen poplar trees and huge, ancient oaks. Little homes along the track in this vicinity are quite pretty. There are a few mountain-side mansions with beautiful flowers—the prettiest we have seen since we left Grenada—the city beautiful.

Now we come into the isolated hills and oh! look here—we really see some sheep, in fact a lot of them—huddled up under the apple trees in a deserted orchard. And now we come into the valley below and my husband says, "Oh, look at the melons!" I looked, and saw hundreds of "cabbage heads" piled up and then we see fields and fields of cabbage plants and the town is Atkins, Virginia. Along the track is a space of two or three hundred feet all level, edged with high mountains. Boys are cutting cabbages and tobacco and resting under the shade of the old apple trees. I imagine there must be a large German population in this part of Virginia owing to the large cabbage industry and the sauer kraut billboard signs. Many abandoned apple orchards are being replaced with cabbage plants which shows the ground can no longer give strength unaided to the hearty apple trees requiring much and long nourishment, but is willing to give its remaining strength to its weaker sisters, the cabbage plants.

We now go under a huge bridge and come out into the beautiful open, station after station we pass and the train slows up at Rural Retreat, Virginia. It's truly nature's queen city, even the beautiful goldenrod has strayed from its Mississippi paternal home to grace the fields of Rural Retreat. The beautiful mountains and an occasional tunnel, then into high, rocky sections where only volunteer hay is grown. Our train is now in a deep cut and the walls of the hills almost touch our windows. Now we are out and coming into Wytheville, Va. After a few miles we come into a very pretty country where we see hundreds of Hereford beef cattle ready for slaughter. As I am a firm believer in the commandment which says "Thou shalt not kill" I am wondering why no one keeps it. "I hope the day will come when no one will eat of that which had to be killed. Of course, what the cattle man would lose, the nut-grower wouldn't refuse; consequently we might have more nuts in the country—perhaps less booze, maybe a lot more money, and finally reach the promised land of "milk and honey", but it's a pretty difficult thing these days to get anybody to be the goat. Oh my, we just entered a long, dark tunnel that didn't look or feel like any promised land—it makes one feel queer, but we are out of it now and the surroundings are beautiful—wild nuts, big black grapes covering massive grape arbors, clear, sparkling streams surpassing our wildest dreams, little children playing and romping over the new mown hay, happy and gay. Lovers in rose covered cottages wave their palmetto fans as our train moves by, and maybe there is a sigh as we wave goodbye.

Here's Pulaski, Virginia. A steel plant, rocky streams, loads of coal, the City Garage built in 1913, Pulaski Foundry and iron blast furnace, car loads of pig iron, a huge transformer station, a lot of magnatite to make iron from, a swimming hole or two and we are on our way.

Passed Murro, Dublin, Melboun, passing in and through lovely mountains, lots of neglected apple orchards receiving sympathetic carresses from huge hogs and receiving in return beautiful red apples dropped from the tree's green arms.

We now come in to New River —very cool breezes greet us here—it's a beautiful country—lovely river, creosote tie plant. Now we pass Watson and Vicer—just small places, very rocky and lots of limestone. A solitary log cabin, perhaps 75 years old being the remaining out building of what was, no doubt, a pretentious mansion in antebellum times. The mountains, valleys, winding streams are all woven into fantastic dreams and labeled Christianburg, Virginia, where stands an industrial institute, a flour mill, an old fashioned hotel, in fact every evidence of an old fashioned town. Massive boulders, deep ravines. This Christianburg, Virginia, is truly an unusual, quaint town. We see as we pass, high limestone walls 50 to 100 feet, long tunnels, deep gulches, spotted with little shack houses. Each little home seems to support pig, cow and horse—a bit of corn and tobacco, cabbage and potatoes. High, tree covered mountains seem to shelter thsse rural inhabitants of Christianburg. The scenery is truly inspiring. You wonder though, how the scattering inhabitants get in and out. The corn and hogs, geese and pigs, children, men and women travel the same narrow pathways.

I see no cemetery—perhaps these good people live in accordance with at least half the name of their town, and God's promise of eternal life is their reward. A few more of these little quaint, sparingly inhabited villages such as Sharoville and Elliston show us civilization minus progress, but all in all, it is a most unusual stretch of country.

We will oon reach Roanoke. Paved highways are now coming in sight. Trucks full of red apples. Patches of corn here and there, wooded thickets beginning to show a delightful country community almost completely surrounded by mountains.

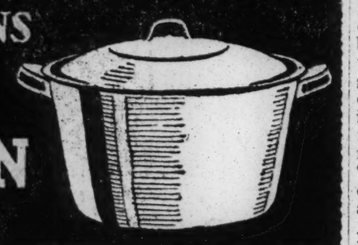

Salem has an industrial atmosphere and we find our rural dream of the past hour passing, and we find ourselves in Roanoke. Our car is filled with cinders and coal smoke, and we miss our western trains which use oil exclusively for fuel. We look out and find we have stopped in front of a beautiful hotel in Roanoke. The grounds are truly beautiful. Thier railroad offices, blast furnaces, manufacturing plants have every evidence of a thrifty little city. There seems to be quite an up and down condition. A house on the uphill and a small farm on the downhill, with beautiful scenery between. Somewhat of a sandwich affair. A delightful eye recreation. You are so thrilled you can even excuse an ill-bred cinder which takes possession, without even permission.

Now we are leaving, and I feel sure the beautiful wayside willows would weep should they have to part from such environment. Our train moves on toward Lynchburg, Va., a very fine southern town where people live good and long. We have some brainy men out west who were reared in this town and to whom I am partially indebted for many of the niceties of life.

It is now growing dark. I see in the distance a beautiful chain of peaks—some beautiful country estates, a large college, red clay hills, tree covered mountains. We draw our curtains, turn on the lights, prepare to retire for the night during which we will pass through Washington, D. C. As we we have been there many times, we will not stop, as we are hurrying along so as to reach Lake Louisé in Alberta, Canada, before the hotels at that resort close for the season.

We will write you again next week.

Making the Southland a Neighborhood

For many years the great distances that separated the spacious plantations and the scattered cities of the Southland isolated the southern states from one another and from the rest of the world.

But no longer is the South isolated. Today it has taken the place it deserves in the nation's industry and commerce. Modern transportation by land, water and air carries the products of southern farms and factories to all parts of the world.

An important factor in this modern era is the telephone. Whether you depend on it to carry your voice around the corner, across the continent or over the Atlantic, you will find it ready to serve you—speedily, efficiently, economically.

This company is ever alert to reduce telephone distance, to make larger telephone neighborhoods. To that end we are spending over $30,000,000 during 1929 in the nine southeastern states that we serve.

Run-Down

"About seven years ago, I was all run-down, worn-out and never felt good," says Mrs. Harry Cantrell, of Cape Girardeau, Mo. "A chair would be more welcome any time than my work.

"I was so tired when I would arise in the morning. Instead of being rested, I felt terrible.

"At last, mother told me to take Cardui, and I did. After the first bottle, I could tell a difference, and when I had taken five bottles the tired feeling was all gone. I felt like a different person, thanks to Cardui. I hope that other mothers will try Cardui. I have been wonderfully benefited by it."

GASOLINE LORECO MOTOR OIL

GOOD GASOLINE!

In a chorus of *super* this and *super* that "good gasoline" sounds like a whisper.

But behind what Loreco says are some well selected oil fields—spouting a superior petroleum. Loreco plants are refining a gasoline already rich in a natural supply of some of this "super" without additions.

Plain Loreco gasoline makes a better controlled explosion and does a cleaner job in the cylinder than many fuels.

But we just say "*good gasoline.*"
